

Infection Control at Mount Farm Surgery

The Partners and all staff at Mount Farm Surgery are committed to minimising the risk of infection to ensure the safety of patients and staff.

The Surgery has policies and protocols in place to support good infection prevention and control practices, and to ensure our facilities are clean and fit for purpose.

The Infection Prevention and Control Lead Clinician for the practice is Dr. Brian Ainsworth.

If you have any concerns regarding infection control or the cleanliness of the practice please do not hesitate to contact Jayne Nayler, Assistant Practice Manager.
